# THE CROP INSURANCE COMMISSION OF ONTARIO

## RESPONSIBILITIES

- Administration of the Canada-Ontario Crop Insurance Program
- Administration of Crop Insurance plans, established by regulations, including the functions of selling underwriting, claims adjustment, and accounting.
- Conduction surveys and research programs relating to Crop Insurance to obtain statistics for Commission purposes.

## THE YEAR IN REVIEW

One of the wettest summers on record resulted in significant indemnities on the white bean crop. However, favourable weather after the first week of October has resulted in good conditions for the harvest of the remaining crops. Financially, the year was favourable resulting in an overall surplus of $12.7 million.

## FEDERAL-PROVINCIAL FINANCING

To provide Ontario producers with the best Crop Insurance program at the lowest cost, the Governments of Canada and Ontario provide the following financial support.

The Government of Canada provides financial assistance to the Canada-Ontario Crop Insurance Program by contributing 50% of the total premium required each year. The Federal Government's contribution to this program totalled $18,199,553 for 1986/87.

The Government of Ontario pays the administration costs which totalled $4,079,630 for 1986/87.

## AUDITOR'S REPORT

I have examined the balance sheet of The Crop Insurance Commission of Ontario as at March 31, 1987 and the statements of revenue and expenditure and surplus for the year then ended. My examination was made in accordance with generally accepted auditing standards, and accordingly included such tests and other procedures as I considered necessary in the circumstances.

In my opinion, these financial statements present fairly the financial position of the Commission as at March 31, 1987 and the results of its operations for the year then ended in accordance with the accounting policies described in Note 1 to the financial statements applied on a basis consistent with that of the preceding year.

J.F. Otterman, F.C.A.,
Assistant Provincial Auditor.

Toronto, Ontario,
July 8, 1987.

## NOTES TO FINANCIAL STATEMENTS

**March 31, 1987**

1. SIGNIFICANT ACCOUNTING POLICIES

(a) Basis of accounting

The Commission's financial statements are prepared using the accrual basis of accounting except for administrative expenses which are recorded on the cash basis, modified to allow an additional thirty days to pay for goods and services pertaining to the fiscal year just ended.

(b) Provisions for payment of unsettled indemnities

At the end of a fiscal year, the Commission estimates outstanding indemnities. In the subsequent year, any difference between the estimated and the actual indemnities is reflected in the statement of surplus and not in the statement of revenue and expenditure as the Commission feels the difference should not be reflected in the current year's operating results.

(c) Premiums collected in advance

Premiums collected in advance represent premiums received for the insurance of various crops where the deadline for applying for insurance coverage occurs after March 31, 1987. This insurance may be cancelled by the insured prior to the deadline date and premiums refunded.

(d) Unearned premiums

Unearned premiums represent premiums received for winter wheat and fruit crops. The harvesting of these crops and the payment of indemnities occurs subsequent to March 31, 1987. However, the deadline date for applying for insurance coverage occurs prior to year end, and accordingly, the insurance cannot be cancelled and no premiums will be refunded.

2. ADMINISTRATIVE EXPENSES

Salaries, benefits and other administrative expenses of the Commission are absorbed by the Ministry of Agriculture and Food and are included in the statement of revenue and expenditure. Administrative expenses of the prior year have been disclosed to conform with the 1987 presentation.

3. REMUNERATION OF APPOINTEES

Total remuneration of the members of the Commission was $5,509 during the 1987 fiscal year.
